

SKC Filter Sampling Accessories

Stainless Steel Forceps

Non-serrated flat tips, for delicate membranes

Cat. No. 225-8371

Serrated pointed tips

Cat. No. 225-13-1

Teflon-coated non-serrated pointed tips

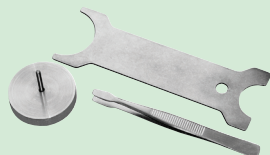

Cat. No. 225-1344

Stainless Steel Filter Lifter

Speeds removal of filters from cassettes without damage.

Cat. No. 225-13-7

Filter Handling Kit

Includes SureSeal Cassette Opener, Filter Lifter, and non-serrated flat tip forceps all in a convenient carry case.

Cat. No. 225-8372

Glass Jars

Sturdy 37-mm glass jars with Teflon-lined caps are ideal for transport and solvent extraction of filter samples in the field or the lab, pk/36

Cat. No. 225-8377

SKC Filter Cassette Holder

The lightweight SKC Filter Cassette Holder attaches firmly to the collar for sampling in the breathing zone. Its special design securely holds a two or three-piece 37-mm cassette with or without cyclone, 25-mm cassette with cowl, or DPM Cassette with GS-1 Cyclone.

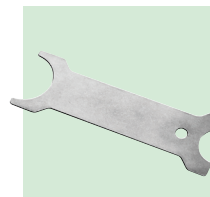

Cat. No. 225-1

SureSeal Cassette Opener

The SureSeal Cassette Opener's sturdy stainless steel construction and crowbar design with extended handle make opening 25- or 37-mm cassettes easy.

Cat. No. 225-13-5A

Cassette Adapters

PVC Luer taper adapters connect a cassette to 1/4-inch ID tubing.

Cassette Adapters, pk/10

Cat. No. 225-13-2

Cassette Adapters, pk/250

Cat. No. 225-132A

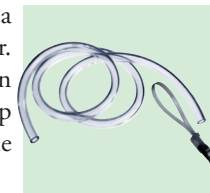

Tubing, Collar Clip, and Cable Tie

Allows attachment of a sampling cassette to the collar. 76.2 cm (30 ins) of Tygon tubing and one alligator clip attached to a nylon cable tie are included.

Cat. No. 225-13-8

Collar Clip and Cable Ties Only, pk/10

Cat. No. 225-13-6

Cassette Tripod Stand

Convenient for area sampling at breathing zone height, the SKC Cassette Tripod Stand telescopes to 1.5 metre (5 ft) and holds a 25 or 37-mm cassette. Stand is not intended to hold a pump.

Cat. No. 228-502

Calibration Jars

Constructed of rugged polypropylene, SKC Calibration Jars feature a quick-screw cap and barbed fitting for easy connection. Available in two sizes.

Standard Size

Cat. No. 225-111

Large Size

Cat. No. 225-112

Helmet Adapter*

Ideal for welders or workers who wear a helmet with face shield. Effectively holds a filter cassette or sample tube in the breathing zone regardless of visor position.

Cat. No. 225-600

* Developed in Canada by IRSST (Institut de recherche Robert-Sauvé en santé et en sécurité du travail du Québec).

Aero-Chek® Cassette Leak Tester

Quickly and safely check cassettes for plastic-to-plastic leakage in the lab or in the field.

Cat. No. 225-8531

SKC Filter Sampling Accessories

Filter-Keeper Filter Transport and Storage

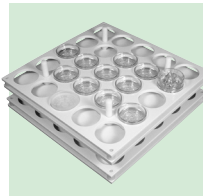

Minimize sample loss with static-dissipative plastic Filter-Keepers. The clamshell design locks the periphery of filters into place away from any surface. Eight Filter-Keepers can be kept in a numbered Filter-Keeper Archiving Tray that contains an area for labeling.

Description	Cat. No.	Qty.
25-mm Filter-Keepers include labels	225-8301	100
25-mm Filter-Keepers with 6 Archiving Trays include labels	225-8302	48
37-mm Filter-Keepers include labels	225-8303	100
	225-8303A	10
37-mm Filter-Keepers with 6 Archiving Trays include labels	225-8304	48
Archiving Trays Only	225-8305	6

Kasset-Kaddy

Each Kasset-Kaddy tray securely holds twenty-five 37-mm cassettes for convenient transport or storage. The polypropylene trays measure 25.4 x 25.4 cm to fit commercially available desiccators and ovens, pk/2

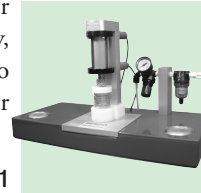

Cat. No. 225-8321

Accu-Press Cassette Closer

Accu-Press Cassette Closer closes cassettes consistently, easily, and without damage to prevent air bypass and filter leakage.

Cat. No. 225-8361

Petri Dish Slide

Easily transport filters up to 47 mm diameter with the Petri Dish Slide. Its rectangular base fits most microscope stages, pk/100

Cat. No. 225-2-01

Filter Transport Case

Conductive plastic case securely holds 25-mm filters for transport.

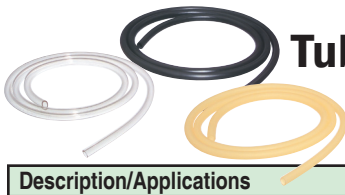

Cat. No. 225-67

Microanalysis Filter Holder

Constructed of glass with stainless steel support screen to hold 25-mm filters for filtering small volumes of liquid for particulate sampling.

Cat. No. 225-8380

Tubing for Air Sampling

Description/Applications	ID (inches)	OD (inches)	Cat. No.	Qty.
Tygon, sampling trains	3/16	5/16	225-1346	3 metre (10 ft)
Tygon, sampling trains; fits over impinger sidearm and inlet, filter cassette outlet, or Luer adapter	1/4	3/8	225-13-4	3 metre (10 ft)
			225-1345	15 metre (50 ft)
Tygon, for calibrating QuickTake Pumps	3/8	1/2	225-1351	3 metre (10 ft)
			225-1352	15 metre (50 ft)
Latex Rubber, black, sampling trains	3/16	5/16	226-03-003	3.7 metre (12 ft)
Latex Rubber, black, sampling trains; fits over impinger sidearm and inlet, filter cassette outlet, or Luer adapter	1/4	3/8	226-03-004	3.7 metre (12 ft)
Latex Rubber, amber, sampling trains; fits over impinger sidearm and inlet, filter cassette outlet, or Luer adapter	1/4	3/8	225-1347	3 metre (10 ft)
Polyurethane, reinforced, sampling trains; fits over impinger sidearm and inlet, filter cassette outlet, or Luer adapter	1/4	15/32	225-1350	3 metre (10 ft)
Spring Tubing Supports, use with 5/16-in OD tubing to prevent kinking			225-1348	5

Sampling Labels

Identify samples with sample number, date, flow rate, pump number, time on, and time off, pk/500
